PARTNER. OXFORD AUDITING

Auditing helps to proactively mitigate the risk of a business failure and helps a company to save better and succeed in a long run through standardization and maintenance of its books.

Message from Partner.

I am delighted to introduce you to my auditing and accounting business, Oxford Auditing, the culmination of a lengthy academic and professional journey. I audited national and global enterprises in a variety of industries (agribusiness, service, trade, industrial, import/export, associations, etc.) throughout this time. I led various audit missions (financial audit, operational audit, etc.) as well as tax and legal advice and Due Diligence during my time at a large multinational audit company.

This provided me with a strong foundation for the second half of my career, which I spent in the Finance Departments of many corporations. As a Finance Controller and Finance Manager, I had the opportunity to learn about all elements of company finance departments and manage the associated work teams.

This change from Auditor's position to Audited position, allowed me to fully understand the needs of my clients and the possible reactions of their employees.

About **OUR COMPANY.**

We are a multi-location company with offices in Sharjah, Al Ain, Abu Dhabi, and Dubai in UAE. As professionals in consulting reports, we are also approved and registered with all UAE courts. We offer holistic solutions in numerous disciplines to assist our clients accomplish "Better Businesses" - and we do so with a team of professionals from around the region. Our success is due to our stringent hiring standards, high level of experience, dependable and efficient services, and in-depth understanding of industry requirements.

Being a great Company.

Maintaining the trust of a company's stakeholders, such as shareholders, lenders, clients, suppliers, authorities, and society in general, is critical to its success. One of the activities a corporation may take to achieve stakeholder trust is to obtain an independent assurance report from our firms.

Each client engagement is subjected to extensive quality controls thanks to an internationally tested approach that has been fine-tuned to the local business context.

Our dedication to improving internal knowledge and support technologies for our audit specialists allows us to provide our clients with the most up-to-date tools and information. Our service is built on ethical values and professional honesty.

Patience, persistence and perspiration make an unbeatable combination for success.
